BIO-ZYME®

SYSTEMIC ENZYMES

MAXIMUM DIGESTIVE SUPPORT*

Bio-Zyme is a high potency pancreatic enzyme complex that helps to optimize digestion.* While other pancreatin products are often diluted with salt or lactose, Bio-Zyme contains eight key enzymes, plus 10X pancreatic enzymes for protein, carbohydrate and fat digestion.* "10X" strength refers to the pancreatin potency. The pancreatin in Bio-Zyme is 10 times more potent than the minimum activity specified by the United States Pharmacopeia.

Formulated to be active in the lower intestines, the pancreatin in Bio-Zyme is most similar to the body's natural enzymes and can help alleviate uncomfortable digestive symptoms like occasional gas and bloating.*

POWERFUL SYSTEMIC EFFECTS

In addition to digestive support, pancreatic enzymes have been recommended for immune system support, urinary tract health, and lung health.*

Bio-Zyme also provides clinically studied results for the relief of muscle pain associated with exercise and overuse.* Reports show that athletes taking Bio-Zyme before and after intense exercise had less muscle pain and faster recoveries.*
